

HF820

“ULTRA HIGH PERFORMANCE TIRE FOR IMPROVED DRIVING STABILITY AND STEERING PERFORMANCE FEATURES & BENEFITS”

FEATURES & BENEFITS

- Good grip on wet and dry roads
- Delivers good performance on wet roads
- Improved directional stability prevents irregular wear
- Tread design provides quiet and comfortable driving experience

NEW

SUMMER TIRES

WHAT WE HAVE TO OFFER YOU:

- Reliable & affordable summer, winter* and all-season* tires
- Suitable for all kinds of vehicles
- Passenger cars, SUV's, 4x4's, light trucks, caravans and trailers
- Over 450 sizes available – 10 up to 22 inch
- Excellent value for money

* The winter and all-season tires are marked with the 3PMSF-symbol. This means that they are officially recognized as winter tires. Also in winter sport areas.

PROVEN QUALITY

For more than 12 years already, millions Hifly tires have successfully been mounted all over Europe.

The Hifly assortment is continuously updated and supplemented, to meet the constant change in tire demand. While new car types are brought on the market, new OE sizes are developed as well. Hifly can offer you the right tire in every season and many ranges.

PROFESSIONAL MANUFACTURER

Our tires are produced by one of China's leading tire manufacturers: Shandong Hengfeng Rubber & Plastic Co, which was founded in 1995. We have an experienced R&D team and advanced testing facilities. This ensures the reliable and stable quality of the tires.

HF201

SUMMER TIRE FOR A COMFORTABLE AND SAFE RIDE.

FEATURES & BENEFITS

- Good grip on wet and dry roads.
- Improved stability for more driving comfort.
- Regular wear enhances the tread life.
- Improves steering precision.

HF901

SUMMER TIRE WITH STEADY DRIVING PERFORMANCE.

FEATURES & BENEFITS

- Enhanced wet grip performance.
- Comfortable and quiet ride due to lower rolling noise.
- Stable driving performance on dry and wet surfaces.

HF805

SUMMER TIRE WITH GOOD WET PERFORMANCE AND ENHANCED STABILITY AT HIGH SPEED.

FEATURES & BENEFITS

- Comfortable and quiet ride due to lower rolling noise.
- Delivers high speed stability.
- Good steering precision on dry and wet surfaces.
- Reduced rolling resistance.

HT601

DURABLE SUMMER TIRE FOR A COMFORTABLE RIDE.

FEATURES & BENEFITS

- Enhanced wet grip performance.
- Provide steering stability.
- Reduced rolling noise.
- Delivers high speed stability.
- Reduces the risk of aquaplaning.

HP801

ULTRA HIGH PERFORMANCE FOR LUXURY CROSOVERS AND SUV'S.

FEATURES & BENEFITS

- Good dry grip combined with all-season capability.
- Comfortable driving characteristics on wet surfaces.
- Effective water drainage and improved cornering grip.
- Lower road noise and longer tread life due to reduced rolling resistance.

SUPER 2000

LIGHT TRUCK TIRE WITH GOOD WET AND DRY GRIP.

FEATURES & BENEFITS

- Extra puncture resistance and increased load bearing capacity.
- Reduced frictional resistance prevents heat generation.
- Provides more mileage and reduced rolling resistance.

SUPER TRAIL

SUMMER LIGHT TRUCK TIRE FOR A SMOOTH RIDE.

FEATURES & BENEFITS

- Good steering precision and comfortable ride due to lower rolling noise.
- Smooth ride, less noise and higher mileage.
- Deliver excellent wet grip performance.

HIFLY SUMMER TIRES

The Hifly summer tire range offers the right tire for any vehicle. From passenger cars, ultra-high-performance vehicles, SUVs and 4x4s (on/off-road) to vans, caravans and trailers. With no less than six unique patterns and more than 250 sizes in 12 to 22 inches, there is a good chance that we have the summer tire you are looking for.

PROVEN QUALITY

The Hifly summer tires HF201, HF805 and HP801 have a 'C' and some sizes even a 'B' label for wet grip. The rolling resistance (or fuel efficiency) of these tyres is also positive, which is financially rewarding. These label values reflect the good quality of the summer tires.

ALL-SEASON + WINTER TIRES

WIN-TURI 212

WINTER TIRE WITH GOOD GRIP AND HANDLING IN HEAVY WINTER CONDITIONS.

FEATURES & BENEFITS

- Improves braking and cornering grip.
- Good wet grip and lower rolling resistance.
- Enhances water dispersal and stability in winter conditions.

WIN-TRANSIT

WINTER TIRE FOR LIGHT TRUCKS WITH BETTER WET GRIP PERFORMANCE.

FEATURES & BENEFITS

- Improves grip on wet surfaces and in winter conditions.
- Enhances traction and handling in winter conditions.
- Provides high load bearing capacity and increases durability.
- Reduced rolling resistance increases mileage.

ALL-TURI 221

ALL-SEASON TIRE WITH GOOD YEAR-ROUND PERFORMANCE.

FEATURES & BENEFITS

- Offers steady driving performance in all-seasons.
- Improves grip and lowers rolling resistance.
- Profile with both summer and winter features.

ALL-TRANSIT

WINTER TIRE WITH GOOD GRIP AND HANDLING IN HEAVY WINTER CONDITIONS.

FEATURES & BENEFITS

- Improves braking and cornering grip.
- Good wet grip and lower rolling resistance.
- Enhances water dispersal and stability in winter conditions.

HIFLY ALL-SEASON TIRES

The big advantage of Hifly all-season tires? You can count on them all year round. In all weather conditions.

The all-season range consists of the popular patterns All-Turi 221 & All-Transit. Whereas the versatile All-Turi 221 is suitable for passenger cars and ultra-high-performance vehicles, the All-Transit is a reliable tire for vans. With a total all-season range of over 85 sizes in 13 to 18 inches, we are sure to have a suitable all-season tire available for your passenger car or van.

 **3PMSF – SAFETY IN WINTER CONDITIONS**

The 3PMSF (Three Peak Mountain Snow Flake) symbol is the only reliable symbol that proves a tire's winter characteristics. Tires with the 3PMSF symbol meet strict conditions and are suitable for the most demanding winter weather. You are allowed to drive with all-season tires marked with the 3PMSF in countries where winter tires are required. All Hifly winter and all-season tires are marked with the 3PMSF symbol.

SUV + 4X4 TIRES

AT601

ALL-TERRAIN SUMMER TIRE WITH GOOD ON AND OFF-ROAD PERFORMANCE.

FEATURES & BENEFITS

- Good braking on wet and dry roads.
- Reduces the risk of aquaplaning.
- Improves high speed stability.
- Great off-road grip.
- Reliable and durable tire with enhanced tread life.
